

“The social stigmatization surrounding those of us with disabilities must be understood and challenged from an intersectional perspective. Advocate with me by recognizing all of me- a Black, lesbian, academic, social justice activist with a learning disability.”

“Los estigmas sociales que nos rodean a las personas discapacitadas, deben ser entendidos y desafiados desde una perspectiva inter grupal. Abogue conmigo, reconociéndome en mi totalidad –una activista por la justicia social, negra, lesbiana, académica, con una dificultad en el aprendizaje”.
